NEW/OLD BUSINESS

Road Millage:
Mayor Denner presented to those present the intention of the Council to extend the road millage at a reduced rate. He noted the last collection for millage at 1.75 mills is December, 2018 for local roads. This specific millage restricted major roads, alleys, and city owned parking lots. The majority of the local roads have been resurfaced. Would seek to continue collecting road funds at a reduced amount.

The intent of the Council is to request a road millage from the current 1.75 mills to 1.00 mills and the first collection would be December, 2019, for a period of fifteen years. He noted the administration is reviewing which roads need to be resurfaced as well as prioritizing alleys, and city owned parking lots. The Council suggested placing the ballot question on the November ballot because it is a State election and many voters make an effort to vote in this type of an election.

Lawrence Gannan:
Mr. Gannan introduced himself to the Council stating he will be running for a Democratic seat for State Senate. He stated he has been a Grosse Pointe Park resident for twenty-four years and offered to meet anyone who is interested.

Stop signs:
City Manager stated there is a four way stop at Lakepointe under a temporary traffic control.

SMART Renewal:
Resident apprised the Council of the SMART millage renewal on the ballot in August for 1.00 mill. He urged the Pointes to get together with SMART and negotiate more services for the Grosse Pointe residents.

Resurfacing:
Resident of Barrington stated he has noticed deterioration on Barrington Street and the City should request a larger stone in the asphalt process.
City Manager stated that the contractor is aware of this problem and is going to repair it. He also stated the size of the stone when the concrete is mixed has been upgraded.

Traffic signs:
Resident stated signage is not being complied with, drivers don’t comply when stopping at a stop sign and requested a four-way traffic stop at Essex and Pemberton. He stated this is a safety issue for children, walkers, and bikers.

City Manager stated he would refer the matter to Public Safety.

Round about
Resident stated the recently planted trees in the round about are too big and the area needs to be cleaned up.

Mayor Denner stated the administration and City of Detroit have been meeting to reconfigure that whole area and we don’t know what the outcome will be yet, too early to discuss specifics and this is a transition period.

Street flooding:
Resident of Trombley stated with the last big storm there were so many seeds from the trees that it blocked the catch basin which caused the street to flood. He inquired if the engineers have undertaken studies to determine if there is something underground that could handle this type of issue.

City Manager stated he would review this issue with the engineers.
